

Dear Parents,

Your child, \_\_\_\_\_, has indicated the need to check out one of the school calculators. Before doing this, you need to read the following, sign it, and have your child return it to the library. At that time, a calculator will be checked out to the student to be used during the school year.

**I understand that my child would like to check out a school calculator to be used for the 2016-2017 school year. If this calculator is lost or stolen, my child must replace it with the same model calculator. The approximate cost of a replacement calculator is \$115.00.**

Student Signature

Note: Cost of "renting" the calculator is \$1.00, which is the cost of one package of four AAA batteries. Please bring \$1.00 when you come to check out the calculator.
